

Florida Land Steward Webinar Series: 2020 Landowner Short Course

Beginning October 15, 2020
2:00 pm to 3:00 pm ET

Our 2020 short course will be offered as a webinar series. Join us to learn about timber marketing, maintaining groundcover during reforestation, using biomass markets in forest restoration, and preparing your property for hurricane season.

Agenda:

<p>October 15 2:00 – 3:00 pm ET</p>	<p>How to Sell Your Timber Scott Sager, UF/IFAS School of Forest Resources and Conservation Register in advance: https://ufl.zoom.us/webinar/register/WN_vXt5BNfWSsi3IfynkKzbOg Know what you are selling and use market competition to get the best price for your timber.</p>
<p>October 22 2:00 – 3:00 pm ET</p>	<p>Keep the Habitat Value of Your New Forest Joe Vaughn and Megan Ellis, Florida Fish and Wildlife Conservation Commission Register in advance: https://ufl.zoom.us/webinar/register/WN_ERpr869jT1yL7sxVT5J-Bg A diverse groundcover is not easy to establish. Don't lose it if you have it. With some planning and deliberate management you can regenerate a forest stand without compromising the existing habitat value.</p>
<p>November 5 2:00 – 3:00 pm ET</p>	<p>Using Biomass Harvesting for Reforestation & Restoration Jib Davidson, Columbia Timber Company Register in advance: https://ufl.zoom.us/webinar/register/WN_hVGR_vK6S6yqx-qExBZfg Make way for forest restoration. Local biomass markets can provide a much-needed market for low value wood that needs to be cleared for forest restoration purposes.</p>
<p>November 12 2:00 – 3:00 pm ET</p>	<p>Prepare for and Recover more quickly from the next Hurricane Chris Demers, UF/IFAS School of Forest Resources and Conservation Register in advance: https://ufl.zoom.us/webinar/register/WN_vQ1DP-mvTTKvEUy7ftTLWg As we have learned in recent years, powerful hurricanes can make their way inland and do considerable damage to forest lands and agricultural enterprises. It's never too early to prepare. Learn some strategies to make your property resilient and steps you can take to recover from a storm more quickly.</p>

Continuing Education Credits

This series has been submitted for a total of 4.0 SAF CFEs (1.0 each session), pending approval.
