We at UF/IFAS Extension hope you will use this calendar to help you better manage your money. Use the calendar to organize your income and bills. You can list your bills on the dates they are due or when you need to pay them. Write down the dates you get paid and what you think the amount will be. This will let you see a clear picture of your finances from month to month by showing when and where your money goes.
For classes on budgeting, personal financial management, credit, saving, Managing in Tough Times, Small Steps to Health and Wealth, and many other topics, contact your local UF/IFAS Extension office for class times and locations.
If you would like one-on-one assistance with organizing your personal finances, we can help you find someone to meet with you through our Florida Master Money Mentor Program. You can be connected through your local UF/IFAS Extension office or by sending an e-mail to:

## How to Build a Spending Plan

Good money management is a habit. It is an everyday task, especially if you need to stick to a plan to make ends meet or reach a goal. Good money management begins with knowing your values, what you need and want, and then setting up a plan to reach your goals. This Money Management Calendar can help you see where your dollars are going day by day. Use the calendar to help you make good money management a habit!

A spending plan will:

- Reduce the stress of not knowing whether you have enough money to pay your bills when they are due
- Help you live within your income
- Provide methods for keeping good records of spending
- Create a way to measure your progress
- Set a good example for others

Follow these 6 steps to build a spending plan:

1. Write down your financial goals
2. Find out where your money is going: record your expenses and bills
3. List all your sources of monthly income
4. Know what your bills are and when they are due
5. Determine if you're living on what you make
6. Develop a plan and stick to it

## Step 1. Write down your financial goals

Having goals for what to do with your money will help you make the everyday choices that come your way. When making goals, try using the SMART method. SMART goals are:

Specific - What exactly will be achieved?
Measurable - How much money will this cost?
Achievable - Is this goal realistic?
Relevant - Does this goal match your values and priorities?
Time-bound - What is the target date for achieving this goal?
Write both your short-term and long-term goals in the chart below. Prioritize your goals in the Rank Importance column. It's a good idea to use a pencil for writing your plan.
If your goal is to pay off debt, use Power Pay (http://powerpay.org).
A power payment system helps consumers repay their debt more efficiently. The Power Pay website provides a calendar that can be used with this calendar. For additional help, contact your local UF/IFAS
Extension office for classes or one-on-one assistance through Florida Master Money Mentors.

Write down your SMART goals here:

| Goal (be specific) | Amount Needed | Begin Saving (Month and Year) | Target Date to Have Money (Month \& Year) | Number of Months | Amount to Save Per Month | Rank Importance |

## Step 2. Find out where your money is going: Record (write down) your expenses

## https://edis.ifas.ufl.edu/publication/HE822

In order to manage your money, you have to know where your money is going. What do you buy? What monthly expenses do you have? What are the different ways you can spend and encumber (make a promise to pay) money?
You may know exactly how much you are spending or you may have no idea. Either way, you need to know where your money is currently going (what you are buying or paying for) in order to create a spending plan. Start by recording everything you spend money on in a single week. Important: If more than one person in the family is spending, each person needs to do this exercise. Add all the expenditures together at the end of the week. Repeat this exercise each week for a full month.

| Monday | Tuesday | Wednesday | Thursday | Friday | Saturday | Sunday | Total |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| Lunch | Gas | Barber | Lunch | Lunch | Laundry | Pizza | Total $=$ |
| $\$ 10.00$ | $\$ 40.00$ | $\$ 20.00$ | $\$ 4.85$ | $\$ 12.50$ | $\$ 17.00$ | $\$ 24.23$ | $\$ 439.07$ |
| Groceries | Lunch | Soft drink | Movies | Clean- <br> ing <br> supplies |  |  |  |
| $\$ 275.22$ | $\$ 8.85$ | $\$ 1.50$ | $\$ 16.25$ |  |  |  |  |
|  |  |  |  |  |  |  |  |

After you have completed writing down your daily expenditures for a week, you will want to add other expenditures you make by check or automatic withdrawals from your checking account to pay bills (if you have this set up with your bank). Make a list of these expenditures and add them to the totals for the week.

| Checks written or digital payments <br> this week | Automatic withdrawals this week (ATM) |
| :--- | :--- |
| Rent $-\$ 885.00$ | Gas company $-\$ 35.00$ |
| Groceries $-\$ 275.22$ | Electric company $-\$ 85.00$ |
| Day care $-\$ 250.00$ | Water bill $-\$ 15.00$ |

Finally, total all your major categories for the month as you track expenses by the week. Your categories may be different from the example given, so change them to fit your actual expenditures.

Amounts Spent by Week:

| Categories | Week 1 | Week 2 | Week 3 | Week 4 | Week 5 | Totals |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| Groceries |  |  |  |  |  |  |
| Eating out |  |  |  |  |  |  |
| Snacks |  |  |  |  |  |  |
| Entertainment |  |  |  |  |  |  |
| Gas (for vehicle) |  |  |  |  |  |  |
| Personal (haircuts, <br> grooming, etc.) |  |  |  |  |  |  |
| Rent/Mortgage |  |  |  |  |  |  |
| Vehicle payment |  |  |  |  |  |  |
| Utilities (gas, water, <br> electric, etc.) |  |  |  |  |  |  |
| Child care |  |  |  |  |  |  |
| Clothing (new, dry <br> cleaning, repairs) |  |  |  |  |  |  |
| Vehicle maintenance |  |  |  |  |  |  |
|  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |

The far right-hand bottom box on the chart will be your grand total for the month. It should equal the total for the columns above it and equal the total of all the weeks across the bottom.

This chart will be helpful in completing Step 4 as well as showing you what bills (vehicle loan, rent/mortgage, utilities) need to be paid in which weeks of each month.

## SMALLEXPENSES allallalilad DiUP!

HOW MUCH DO YOU SPEND EACH WEEK ON LITTLE STUFF?

## Step 3. List all sources of monthly income

https://edis.ifas.ufl.edu/publication/HE823
When developing your spending plan, use your net income or take-home pay. Remember to include all forms of income. Examples of other types of income include take-home pay from other family members, self-employment income, retirement income and investment income if you are using it to live on. Income supplements, such as child/spousal support; food stamps; and Women, Infants, and Children (WIC), should also be listed.
Tip: If you are paid weekly, add up 4 paycheck amounts. If you are paid every 2 weeks, add up 2 paycheck amounts. This is the amount you can count on each month. Make your monthly plan based on this amount and use "extra" paychecks that you receive 2 or 4 times per year as savings for periodic expenses or emergencies. If you have to pay federal taxes perhaps your W4 needs to be altered. Complete a new Form W-4, Employee's Withholding Allowance Certificate, and submit it to your employer. For more information, please visit: https://www.irs.gov/forms-pubs/ about-form-w-4

## Step 4. Know what your bills are and when they are due

Are your bills fixed or flexible? There are two major types of expenses in a spending plan: 1) fixed expenses and 2) flexible or controllable expenses.
Fixed expenses are those you usually pay on a regular basis. They may be the same amount each time, or they may vary from month to month. They usually have a big consequence (such as a penalty) if they are not paid or not paid on time.

Many fixed expenses are paid every month, but others have to be paid every three months (quarterly), every six months (semiannually), or every year (annually). These are called occasional or periodic fixed expenses. Think of the total amount for each of these periodic expenses for the entire year and divide by 12 . This will show how much of each month's income needs to be set aside to have enough funds for that expense prior to it coming due. In Table 1 on the next page, list your monthly fixed expenses.

Flexible expenses are those that usually vary in amount from month to month. Since you are not committed to previous agreements with others for these amounts, you have more control over these expenses than you do for fixed expenses. The little decisions you make every day determine if you spend a little or a lot. When you are squeezed financially, you can cut back on flexible expenses or even cut some out.
Flexible expenses usually vary from month to month. People who keep spending records for the first time are often surprised by how much they spend on things they don't really need or want. In Table 2 on the next page list your monthly flexible expenses.

As you gain better control over your flexible expenses, you will have an easier time covering your fixed expenses, avoiding late penalties, and achieving your financial goals.

Once you've recorded and totaled your fixed and flexible expenses, add them together and record the grand total for your expenses in Table 3.

| Monthly Fixed and Flexible Expenses | Amount |
| :---: | :--- |

## Step 5. Determine if you are living on what you make

Now that you have calculated your income (Step 3) and totaled your fixed and flexible expenses (Step 4), you need to determine if you are living on what you make (total expenses do not exceed total net income) or if you are spending more than you make (total expenses exceed total net income).
Use the first table below if the total for your income in Step 3 is more than your total expenses in Step 4. Use the second table below if your total expenses are more than your total income.
My total income is more than my expenses:

| Total Income Minus Total Expenses | Amount |
| :--- | :--- |
| Total Income (Step 3) | \$ |
| Minus Total Expenses (Step 4, Table 3) | - |
| Total Surplus | $\$$ |

My total expenses are more than my income:

| Total Income Minus Total Expenses | Amount |
| :--- | :--- |
| Total Expenses (Step 4, Table 3) | $\$$ |
| Minus Total Income (Step 3) | - |
| Total Deficit | $\$$ |

If you used the first table, the amount of surplus (unspent money) is available for you to use for additional savings or to reach your short- or long-term goals. For example, you can save all or part of it, you can purchase something with the money, or you might use it as an extra payment on an installment loan or mortgage. Return to Tables 1 and 2 to make these changes. Otherwise, this savings will disappear each month with miscellaneous spending.
If you used the second table, you have deficit spending. This is the amount of money you must subtract from your expenses in order to keep from spending more than you make. Return to Tables 1 and 2 in Step 4 and determine which categories you can reduce or cut out. The total adjustments to the categories
must be equal to or greater than this total deficit. This will help you monitor your expenses in coming months so you do not overspend your plan. You might be able to juggle to make ends meet for a few months, but you will eventually be late on bills or need to borrow to stay current. Make some hard decisions now to have a balanced plan.
With the help of this calendar, you can do this step monthly after you have made purchases and paid bills.
In addition to changing expense category amounts, you can look at ways to increase your income by getting a second job, working consistent overtime if available, a family member getting a job, or upgrading your skills to get a better job.

## Step 6. Develop a plan and stick to it with the UF/IFAS Money Management Calendar

## https://edis.ffas.ufl.edu/publication/HE826

Use the calendar and charts for each month to plan and record (write down) your income and expenses (see sample on the next page). On the calendar, write how much income you expect on the dates you expect it. Write when and how much you are going to save. When you get a bill, write in the due date and how much you owe. Cross off items as you receive it, save it, or pay it. You can also write reminders about how and when to pay bills. Plan ahead so that you know the money gets there in time to avoid late fees. Note when you intend to shop for groceries and supplies, recreational events and their cost, and any other financial activities. Actually seeing these financial dates over time helps you identify "cash flow" problems. In other words, your spending plan might show you that you have enough money for the month, but does it come in at the right times? A spending plan helps you adjust to a billpaying schedule.
Use the monthly flexible expense chart to write the amounts you actually spend by category (see sample on the next page). Add up category amounts each week and compare to the amount you intended to spend for the month. Are you sticking with your plan or do you need to make adjustments to your spending to make your money stretch for the month? Add up the amounts spent by category at the end of the month and compare to your planned amounts. Finally, record your total expenses for each month on the chart that follows the December calendar to track your expenses for the whole year.
Tip: Meet with those involved with your spending plan to make sure it is realistic, that everyone is committed to making it work, and to make adjustments for future months, if needed.

| Savings Tip-There are benefits to giving to others. People who give to others are generally more satisfied with their own life situation. Money, goods and services, volunteer hours, expertise, random acts of kindness-What can you give? Remember, you are defined by actions, not by what you buy. https://edis.ifas.ufl.edu/publication/FY1404 |  |  |  | 1 | 2 | 3 |

## Income Tax Updates

Major tax law changes have affected every taxpayer filing an income tax return since 2018. Highlights include:

- Standard deduction changes nearly doubled
- Various deductions limited or discontinued
- Various permanent and temporary credits

For the most up to date Tax information, please visit: https://www.irs.gov/ newsroom/help-for-taxpayers-and-tax-professionals

Ensure you are getting your federal withholding right. Withholding determines if you are due a refund or if you have to pay. https://www.irs.gov/ individuals/tax-withholding-estimator

The IRS's Volunteer Income Tax Assistance (VITA) and Tax Counseling for the Elderly (TCE) programs offer free basic tax return preparation to qualified individuals.

VITA/TCE services are FREE.

- Do it yourself with free software available at Free File: https://www.irs.gov/filing/free-file-do-your-federal-taxes-for-free.
- Find a location where an IRS-trained and certified volunteer can prepare your income tax return for you: https://www.irs.gov/individuals/find-a-location-for-free-tax-prep.

At select tax sites, taxpayers also have an option to prepare their own basic federal and state tax return free using Web-based tax preparation software with an IRS-certified volunteer to help guide you through the process. This option is only available at locations that list "Self-Prep" in the site listing.
If you are self-employed or a contract worker and are issued a 1099 MISC., it is imperative that you keep good financial records.

IRS is now featuring information and resources to help small business owners and self-employed individuals. https://www.irs.gov/newsroom/ understanding-the-tax-responsibilities-that-come-with-starting-a-small-business

Income: You must report all income on your tax return, even if you do not receive Forms 1099 from the businesses that pay you.
Expenses: You can lower the amount of tax you owe by deducting certain expenses.

## There are two types of tax credits:

A nonrefundable tax credit means you get a refund only up to the amount you owe.
A refundable tax credit means you get a refund, even if it's more than what you owe.

Popular credits include:

## Credits for Individuals:

- Family and Dependent Credits
- Earned Income Tax Credit
- Child and Dependent Care Credit

Other popular credits:

- Credit for Other Dependents
- Credit for the Elderly or Disabled
- Income and Savings Credits
- Saver's Credit

## Health Care Credits for individuals:

- Premium Tax Credit (Affordable Care Act)
- Health Coverage Tax Credit

Education Credits for individuals:

- American Opportunity Credit, and
- Lifetime Learning Credit

## Credit Report

A credit report is a statement that summarizes information about your past credit history and current credit activity. It records how a person manages credit. A credit report consists of four basic sections:

1. Identity Information: Personal information to identify you. It would not include demographics, such as gender or race, but other information like your current or previous addresses, date of birth, telephone numbers, and employment information.
2. Public Records: This is where legal issues related to your financial situation are reported. This includes information like bankruptcies, foreclosures, judgments and other court proceedings such as tax liens.
3. Credit History: Includes an account for each company that has granted you credit. Types of credit include installment (mortgage, car loan) or revolving (credit cards, personal lines of credit). The credit report shows the following:

- Name under which the account is listed (your name or names if a joint account), total amount of the loan, credit limit and the highest balance on the card.
- How much you owe and how well you've paid the account.
- Status of the account (open, inactive, closed, paid etc.) .

4. Inquiries: A list of everyone who has asked to see your credit report within the past two years. Inquiries are divided into two sections:

- Hard inquires: Initiated by filing out a credit application. The more of these inquiries, the more potential there is for debt.
- Soft inquiries: From companies that want to send out promotional offers to pre-qualifies individuals. Also, from current creditors monitoring your account.

## How To Get Your Credit Report

You are entitled to a free credit report every 12 months from each of the three major consumer credit reporting agencies, which include:

- TransUnion
- Experian
- Equifax

You can request and review your free report through one of the following ways:

- Online: Visit AnnualCreditReport.com
- Phone: Call (877) 322-8228
- Mail: Download and complete the Annual Credit Report Request form. Mail the completed form to:

Annual Credit Report Request Service
P.O BOX 105281

Atlanta, GA 30348-5281

## Check Your Credit Report

Carefully review your report for accuracy. Ensure all the information is correct and up-to-date. Check for any wrong addresses, misreported late payments and open accounts that you closed or did not open.

## Dispute Mistakes Found on Your Credit Report

If you see something you believe to be inaccurate or incomplete, contact the company reporting the information. You can also dispute the information with the credit reporting agency. File credit report disputes via regular mail, telephone, or email. Using email is highly recommended because the process is faster, and you have the option to track the status of your dispute.

## Credit Report Tips

- Check your credit report every 4 months. You can check a report for free once a year from the three credit reporting agencies. This can help prevent against identity theft.
- Requesting your credit report does not affect your credit score.
- Knowing what is on your report helps you know what lenders are seeing.

## Identity Theft

Under federal law, identity theft occurs when someone uses or attempts to use the sensitive personal information of another person to commit fraud. In 2021, there were nearly 1.4 million reports of identity theft received by the Federal Trade Commission.

## Signs Someone Is Using Your Identity

- Unexplained transactions from your bank account
- No longer receiving expected bills or other mail. (This could be a sign someone changed your billing address.)
- Receiving calls from debt collectors about debt you didn't incur.
- Unfamiliar accounts or loans on your credit report.
- The IRS says it got more than one tax return in your name.
- You receive medical bills for services you did not get.

## How to Protect Yourself Against Identity Theft

- Get your credit report every four months from the three credit reporting agencies and carefully inspect to make sure everything listed there belongs to you.
- Set up bank alerts to help notify you of unusual activity or fraud.
- Enable the security features on your mobile devices.
- Use multi-factor authentication for an extra layer of security.
- Update your passwords periodically and avoid using the same password for multiple sites.

## What To Do If You Are A Victim of Identity Theft

- Contact the credit reporting agencies and set up fraud alerts. (You can also do a credit freeze, which restricts access to your credit report.)
- Call the fraud department at the companies or financial institutions where you suspect the identity thief used your personal information.
- Report identity theft to FTC (Federal Trade Commission) https://reportfraud.ftc.gov/\#/
